Ad Aware Pro Review

Is Ad Aware Pro a Scam? Is Ad Aware Pro Safe to Install? Any Complaints?

According to both our personal experience and consumer feedback across the web, Ad-Aware Pro is completely safe and easy to install and does its job very effectively.

Pros:

-Consumers almost unanimously agree that Ad Aware is the best adware software available today.

Cons:

-Some would argue that the extra cost of Ad Aware Pro over Ad Aware Plus does not justify the difference in features between the two versions. The only features the Pro version has that the Plus version does not are: Do Not Disturb Mode, Toolbox (including Process Watch, AutoStart Manager, ThreatWork, and Hosts File Editor), Real-Time Network Protection, and Network Drive Scanning. If you're like most people, the Plus version will be all you need. Please [click here to see our review of Ad Aware Plus](#), or [click here to download a free 30-day trial of Ad Aware Plus](#).

Merchant & Website:

Lavasoft AB at Lavasoft[dot]com
