AdwareAlert Review

Is AdwareAlert a Scam? Is AdwareAlert Safe to Install? Any Complaints?

Although we did find some complaints on internet forums. Please see "Consumer Feedback" section below.

Pros:

-Adware Alert only costs a low, one-time payment.

Cons:

-As is true for many other anti-malware products, the "free scan" for AdwareAlert only identifies problems but will not fix them without a purchased license.

-Most of the consumer feedback regarding this software as found in online forums has been negative. Please draw your own conclusions before deciding whether or not to buy this software.

Customer Feedback / Comments:

"AdwareAlert ...pretends to be a legitimate spyware remover, while in reality, AdwareAlert is a complete fake that uses scare tactics (pop-ups, fake system notifications, falsified system scans) to get the user to buy..."—Actual Consumer Feedback from 2-Spyware[dot]com

"I recently downloaded and bought a program called AdwareAlert thinking that it would protect my computer from adware. But now my computer is acting all wonky and I can't seem to get rid of this program." — Actual Consumer Comments from Yahoo Answers

"I unfortunately installed Adware Alert ...I have since learned that it appears to be a corrupt anti-spyware program. I tried uninstalling it, but when I do, it seems to corrupt my operating system's startup. After uninstalling Adware Alert, I am prompted to restart, but then my system gets caught in a loop, where it displays the first few startup screens repeatedly and will not re-boot." — Actual Consumer Comments from PCBanter[dot]com Forums

"I do a big mistake when I used Adware Alert antispysware ...This is really very bad antispysware, that is rogue & not well working, its damage internal parts of my computer system.." — Actual Consumer Comments from Piriform[dot]com Forums
